Virtual hospital

Teledermatology

Frimley ICS

The challenge

Wait times for routine dermatology at the local trust were in excess of 80 weeks.

The solution

We were able to provide a bespoke service where GPs could refer to a referral platform either with or without dermatoscopic images. A medical photography clinic is provided up to four days per week across the geography, allowing access to photos within 48 hours for 2-week waits, to 10 days for routine patients.

The aim of teledermatology is to reduce demand on the acute trusts, to treat patients in the community where possible, and to eliminate the need for any face-to-face appointments if a management plan can be sent to the GP by the specialist.

The outcomes

The performance summary for the first four months has shown:

- 40% reduction in 2-week wait referrals being sent to secondary care
- 40% of overall referrals are managed outside of secondary care

Then

September 2022

wait time

80 weeks

For routine 1st outpatient appointment

Now

February 2023

wait time

48 hours

For teledermatology review and outcome sent back to GP/referrer

Virtual hospital monitoring

Sensium

Hospital monitoring

ICU standard vital sign monitoring, generating targeted notification of patient deterioration

- Heart rate – Single lead ECG, superior to cuff-based/SP02 sensor pulse rate
- Respiratory rate – Impedance pneumography, superior to ECG derived respiration
- Axilla temperature – Superior to skin temperature, surrogate for core body temperature
- Activity/posture – putting vital signs in context

The outcomes

29%

Reduction in length of stay

£1,470 net

Saving cost-saving per patched patient

80%

Reduction in unplanned critical transfers

Global healthcare delivery partner

Acacium Group in numbers, 2022

Leading **global healthcare** delivery partner

Facilitated over **13,000 hospital discharges**, saving **97,000 bed days**

Helped **235,000** people to **change their lifestyle** to lose weight, **reverse or reduce** the risk of **Type 2 diabetes**, since 2016

Over **140** clinicians in our management team providing **robust clinical governance**

Filled over **380 international nurse placements**

Filled over **1.1m bank shifts**

Providing over **426,000** hours of mental health support

Workforce partner for the **UK's largest ever health research programme**

Over **30,000 skilled professionals** deployed, weekly

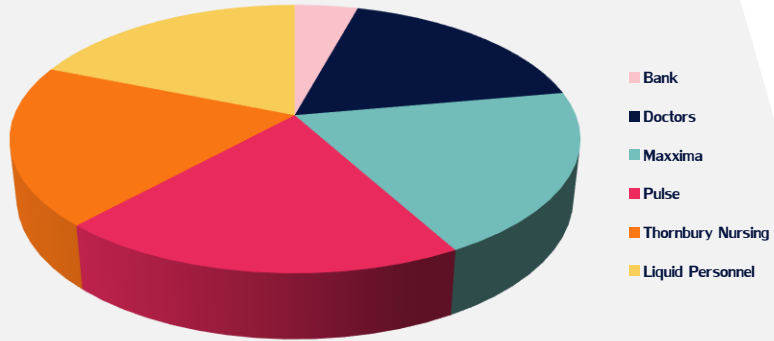

Life sciences placements made in **44 countries**

Over **110,000 elective care** patients seen

Completed over **60,000** hours of diagnostic work
